

**RURAL ROUTE 1**  
FARMS LLC

**Certified Non GMO Corn Fed Nebraska Beef**

Here at RR1 Farms we feel very strongly about protecting the land for all future generations. Our Family farm is committed to producing highly nutritious food for the growing population yet make it sustainable so everyone can experience truly excellent food. We understand that the consumer places their health and the health of their family in our hands and we welcome that responsibility. All of the feed that our cattle receive is home grown to ensure that the cattle get the best, most nutrient dense natural feed possible, grown the way God intended, without human alterations. Our family decided to take a step back in time and produce food the way we did years ago when the beef by itself tasted great without all the toppings condiments and secret sauces. Our Premium Black Angus, 100% Antibiotic and Hormone Free, Certified Non-GMO, Nebraska Corn Fed Beef is not just the best meat you will ever taste it is also the most nutrient dense, no nonsense, good for you, beef, that you will ever sink your teeth into. When you eat beef grown by RR1 Farms you will know the taste of excellence. From our family to yours "Thank you for choosing beef the way God intended."

Thank You,

*Allan R. Ortmeier*
