

## **Where can you find our Meat?**

RR1 Farms is proud to announce a partnership with Creekstone Farms and their team to help us distribute our Premium 100% Antibiotic and Hormone Free, Non-GMO, Nebraska Corn Fed Beef throughout the country. Creekstone Farms has the reputation for processing and distributing top quality consistently delicious Premium Black Angus beef, but they went another step in the right direction when they became Non-GMO Project verified. All of us at RR1 Farms agreed that the family atmosphere and trust in the overall character of Creekstone Farms made it an easy decision to help us get our meat to the consumer. You can now have our meat delivered right to your door within 1 to 3 business days. Just visit [www.creekstonefarms.com](http://www.creekstonefarms.com) and shop under the NON-GMO BEEF tab. Once you experience the nutrient dense mouth-watering flavor of our beef, you will say, "That's the best meat I ever had."
